Dear Parents,

Juice Box Art™ is pleased to have been selected to be part of your school's FUNdraiser and your children's art is the key element! Kids can create their own party invitations, stickers, holiday cards, design a special gift for the grandparents, aunts and uncles – a treasure for any gift giving occasion. You get the enjoyment and the school and an educational charity get a benefit. A FUNdraiser success!

Here is how it works:

- Select the art work from a class project or from your private collection
- Pick up the Juice Box Art™ order form from your school
- Return to your school the completed order form, selected art work and your payment
- Your school will send the art work and order form to Juice Box Art™
- Juice Box Art™ will scan your child's *masterpiece* to be printed on your selected items
- The original art and your order will be returned to your child's school for your pick up
- Plan ahead as it may take up to two-three weeks for delivery

To get started you should know the following when selecting the art to be scanned. The size of the art may not exceed 9 X 12 – no glitter, neon paper or neon pencils as the scanner will not pick up the colors – no beads, macaroni or other raised items – all art must be flat – you can mix media such as ink, pencil (not neon), crayons and finger paints - you may also send a collage, provided it will lay flat on the scanner. Please make sure there is nothing on the back of the selected art as it may bleed through and detract from the original art work.

Encourage your children to sign their art – the signature location should be at least a half inch from the edge of the paper to insure the scanner will copy it properly. If you are ordering note cards or invitations, please provide on a separate sheet of white paper the child's signature in order that Juice Box Art™ may print it on the back of the cards.

Remember, you may order all year long not just during a planned FUNdraiser – ask your school for the forms so they will benefit from your order. Remember, Juice Box Art™ donates a portion of every sale to an educational charity. Everyone benefits and it's fun and easy!

Thank you,

Judith M. Monroe
